

SPRING SERMON SERIES OVERVIEW

Sermon Series Categories

When putting our sermon series calendar together, I always focus on hitting four major categories of sermon series archetypes over the course of the semester.

1. Topical
2. Biblical Literacy
3. Biblical Concepts
4. Book of the Bible

Heroes and Icons

The Bible is full of incredible stories of normal people doing extraordinary things because of their faith in God and His commitment to both use and save his people. This series is our opportunity to learn their stories and build up our own faith that if God can use them He can use us too.
